EDUCATION

University of California, Davis

Bachelor of Science in Applied Mathematics, Computer Science Minor

Berkeley City College

Associate of Arts in Mathematics and Computer Science | Academic Honors, 3.89 GPA

Augustana College

Kendriya Vidyalaya Kathmandu

High School Diploma | 3.8 GPA

EXPERIENCE

AI Trainer | Handshake

- Designed finance-domain prompts and scored AI model responses across six quality dimensions, including correctness, truthfulness, and instruction following.
- Labeled and evaluated AI-generated content across annotation tasks, keeping data accurate and consistent with project guidelines for model improvement.
- Reviewed model outputs on coding tasks for technical accuracy and wrote targeted feedback to improve code-related response reliability.

Founder & Consultant | Above Imagination

- Founded an education consultancy that guides students through college applications, admissions strategy, and visa advising.
- Built tailored advising plans that matched student academic profiles to target institution requirements and application timelines.

Store Manager | 7-Eleven

- Managed daily store operations including financial reporting, inventory control, and loss prevention at a high-traffic retail location.
- Trained and supervised a team of associates on customer service standards and store procedures, reducing operational errors.

Student Services Employee & Dining Hall Staff | Augustana College

- Handled administrative support and campus communications, keeping daily student services operations running on schedule.
- Managed dining hall operations during busy service periods, covering food preparation, inventory tracking, and health and safety compliance.

Online Math Tutor | Self-Employed

- Tutored students in algebra, calculus, and statistics, adjusting lesson plans to each student's skill level and learning pace.
 - Broke down complex math concepts in plain terms, helping students build confidence and improve academic performance.
